

...Bringing You and Convergence Together

Design Any Theaters Lately?

Let **Acoustic Innovations'** new design techniques work for you to make your projects more profitable. **Spend less time designing and more time selling!**

Download **AI's** newest design software, **Visualizer**, today and see for yourself how easy this is to present to your client. You can show your customer different theater or seating styles or change the color of the walls or carpet with just the click of a mouse. It doesn't get any easier than this!

Click below to download a zip file containing the **Visualizer** program. The size is approximately 20MB, so be patient!

<http://www.acousticinnovations.com/VS.zip>

Once you've designed the theater, you can print directly on your color printer or save a copy that can be e-mailed to your client!

Future versions will allow additional options, new designs, and AI's long-term goal of an integrated 'Showcase Design Suite' for visualization, layout and pricing.

If you need assistance in downloading or using this software, please call Convergence Marketing!
